Loss from ordinary activities attributable to equity holders for the nine months and three months ended 30th September 2008 was approximately HK\$5,426,000 (2007: loss of HK\$996,000) and HK\$884,000 (2007: loss of HK\$1,291,000) respectively.

Basic loss per share for the nine months and three months ended 30th September 2008 was approximately 3.01 HK cents (2007: 0.55 HK cents) and 0.49 HK cents (2007: 0.72 HK cents) respectively.

BUSINESS REVIEW

The unaudited turnover of the Group increased by approximately 15% to approximately HK\$142,818,000 compared with the turnover for the corresponding period in 2007.

During the nine months ended 30th September 2008, the crude oil prices continue to rise and maintained at an extremely high level. Despite the exercise of tight cost control on the Group's operations, the high oil prices brought tremendous negative impact on the profitability of the Group's operations.

FUTURE PROSPECTS

In addition to exercising continuous efforts to control costs and improve operating efficiency of the existing business, the management of the Group will look further into the feasibility of increasing the Group's investment in other industries in order to diversify the Group's earning bases and ultimately increase the Group's profitability.

MATERIAL ACQUISITION

On 30th July 2008, Mega Field International Limited ("Purchaser"), a wholly-owned subsidiary of the Company, entered into a memorandum of understanding with Mr. Zhang Weiting ("Vendor"), an independent third party, in relation to the proposed acquisition of a company with investment in a Sino-foreign joint venture company with principal business in the provision of nation-wide telecommunications value-added services, including packaged message subscription, payment or recharging services for mobile game and entertainment, to mobile phone subscribers in the PRC.

On 23rd September 2008, the Purchaser entered into the master agreement with the Vendor pursuant to which the Vendor has conditionally agreed to dispose of and the Purchaser has conditionally agreed to acquire the sale shares and the Sale Loan at a total consideration of not more than HK\$695 million.

The consideration of not more than HK\$695 million will be settled by the Company in the following manner: (i) as to HK\$5 million by cash; (ii) as to HK\$26.40 million by the issue of 44,000,000 consideration shares at the issue price of HK\$0.60 per consideration share upon completion; (iii) as to HK\$409.20 million at maximum by the issue of the convertible bonds in the principal amount of HK\$409.20 million with the conversion price of HK\$0.66 per conversion share; and (iv) as to HK\$254.40 million at maximum by the issue of the promissory notes in two tranches. Both the consideration shares and the conversion shares shall be allotted and issued under the specific mandate.

The Board considered that with the increasing usage of mobile phone in the PRC, the provision of nation-wide telecommunications value-added services to mobile phone subscribers is a high potential growth business which can broaden the earning base of the Group and increase the profitability of the Group.

An extraordinary general meeting will be held on 26 November 2008 to consider and, if thought fit, approve the ordinary resolutions in respect of the master agreement and the transactions contemplated thereunder.
