2005 FIRST QUARTERLY RESULTS ANNOUNCEMENT

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the internet website operated by the Stock Exchange. Companies listed on GEM are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website at www.hkgem.com in order to obtain up-to-date information on GEM listed issuers.

The Stock Exchange of Hong Kong Limited takes no responsibility for the contents of this announcement, makes no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever to any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the directors of ARGOS ENTERPRISE (HOLDINGS) LIMITED collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Stock Exchange for the purpose of giving information with regard to ARGOS ENTERPRISE (HOLDINGS) LIMITED. The directors of ARGOS ENTERPRISE (HOLDINGS) LIMITED, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief:- (1) the information contained in this announcement is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this announcement misleading; and (3) all opinions expressed in this announcement have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

BUSINESS REVIEW

Due to persistent high oil prices in the first quarter of 2005, the period under review is a difficult one for the Group as the high oil prices have a direct and negative impact on the profitability of the Group. Also, the increase in staff costs in some subsidiaries in the PRC had an unfavourable effect on the profitability of the Group.

The unaudited consolidated turnover of the Group for the three months ended 31 March 2005 was approximately HK\$30,518,000 representing an increase of 24.1% over the corresponding period in 2004. The increase in turnover was mainly attributable to “Public routes” segment and “Sightseeing ticket sales and touring” segment operated by the Group.

The profit attributable to shareholders was approximately HK\$296,000, representing a decrease of 45.1% over the corresponding period in 2004. The decrease in the profit attributable to shareholders was mainly due to the drop in gross profit caused by the increase in cost of sales driven by the persistent high oil prices and the increase in staff costs due to the introduction of mandatory employees medical benefits for the two subsidiaries in Nanjing, PRC. Earnings per share for the three months ended 31 March 2005 was 0.16 HK cents as compared to 0.30 HK cents for the corresponding period in 2004.

The gross profit margin of the Group decreased from 17.0% for the corresponding period in 2004 to 12.5% for the three months ended 31 March 2005 due to the negative impact of high oil prices and the increase in staff costs.

FUTURE PROSPECTS

Although restrained by the concerns over inflation stemming from the relevant government authorities in the PRC, the Directors will endeavour to negotiate with the relevant government authorities in the PRC for raising the bus fares and/or subsidies from the government in order to offset the negative impact on the Group’s operation due to high oil prices and increase in staff costs so as to improve the overall profitability of the Group.

Also the Group will continue to control its costs and improve the efficiency of its operations in order to offset the negative impact on the profitability of the Group due to high oil prices and the increase in staff costs.
