THIRD QUARTERLY RESULTS ANNOUNCEMENT FOR THE NINE MONTHS ENDED 30 SEPTEMBER 2012

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever to any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

Operational Review and Prospect

Taking into account of the unsatisfactory financial position and performance of the Group for the past years, the Group is actively exploring the availability of alternative source of funds to strengthen the working capital and the asset base of the Group. During the period and up to the date of this announcement under review, the Group had completed several placings and issuance of right shares. The Group believes that such measures taken have greatly improved the Group's financial status and in a more healthy financial position for future development.

The travel industry is still very competitive in the People's Republic of China (the "PRC"). The Group has to face a difficult environment particularly the inflation and the continuous growth in the operating costs. As the annual disposal income per capita continues to grow in the PRC and more and more overseas locations are freely open for the PRC citizens, it is optimistic in the business growth of our travel agency operation.

The Group started trading in securities from mid-June 2012. The securities investments principally comprise securities from companies listed on the Stock Exchange. The securities investments will be held for short term trading purpose. It is intended that the securities investments will provide the Group with a reasonable dividend yield as well as capital appreciation.

The Company's securities portfolio as at 30 September 2012 was as follows:

Name of stock (Stock code)	Share holdings	Invested amount <i>HK\$</i>	Market value <i>HK\$</i>
Inno-Tech Hold (8202)	900,000	391,500	225,000
CNC Holdings (8356)	760,000	568,400	532,000
Carnival Group (996)	1,300,000	<u>383,500</u>	<u>474,500</u>

On 16 February 2011, the Group acquired 51% of the issued share capital of Dragon Gain Worldwide Limited ("Dragon Gain"), a company which through its wholly owned subsidiary holds a non-exclusive licence to adapt Mr. Louis Cha Leung Yung's novel "Born to be hero 天龍八部" for stage drama performance worldwide (except Japan). On 15 December 2011, the stage drama is officially launched in Beijing. The launch performance in Beijing ran from 15 December 2011 to 8 January 2012. The performance of the stage drama in Beijing was unsatisfactory as the operation cost unexpectedly increased by the launch of the drama and the failure to secure sponsorship for the stage drama. The Group is committed to strengthen the cost control policy in this operation. Besides, the Group is planning to stage the drama in other Asian regions and intends to invite the sponsorship for the shows.

According to the acquisition agreement, the Company may exercise its option to put back the 51% share capital of Dragon Gain to its original vendor at the original acquisition price plus a pre-agreed premium. Although the performance of the stage drama is disappointed and the profit guarantee provided by the vendor of the relevant acquisition may not be met, however, given the special nature of entertainment business it will be difficult to assess whether such profits guarantee can ultimately be achieved or not and at present the Company intends to wait further to see if there is any turn around on the performance of the stage drama to decide whether to exercise the put option to put the investment project of the stage drama back to its original vendor. The Company will closely monitor the performance and development of the stage drama project.

For the talent academy in Macau, its capital investment has already been completed and the official school license of the Macau talent academy is in the final stage of approval by the Education and Youth Affairs Bureau in Macau (“EYAB”) and the Group is optimistic with it, the Group has worked closely with EYAB in rescheduling the commencement of the operations of the Macau talent academy and it is expected that enrollments of the training courses will commence in the fourth quarter of 2012. However, due to the delay in the granting of the official school license to the Macau talent academy, it has delayed the scheduled commencement of business of the talent academy and has adversely affected its performance and as such it has failed to provide any profits to the Group and according to the acquisition agreement for 51% issued capital of Fountain City Holdings Limited (“Fountain City”), the Company may exercise its option to put back the 51% share capital of Fountain City to its original vendor at the original acquisition price plus a pre-agreed premium. The Company is considering and assessing on exercising the options to put back the 51% share capital of Fountain City to its original vendor if it is in the best interest of the Shareholders.

On 28 February 2012, the Group acquired the entire issued capital of Creative Star Limited (“Creative Star”) which holds 60% of the share of Hong Kong Marketing Service Limited (“Hong Kong Marketing”). Hong Kong Marketing is engaged in product advertising and promotion, marketing agency and planning, function organization and media project services. With the strong client base and the media network Hong Kong Marketing possessed as well as the management’s experience in advertising and promotion industry, the Company considers that the acquisition can provide a synergy effect to the Group’s existing businesses which includes provision of cross-selling, marketing platform and resources for brand building. Given the stable source of revenue from Hong Kong Marketing, the Directors expect that the acquisition will not only increase the income stream and bring additional stable earnings to the Group but also increase the return on equity which in long run can bring benefit to the Group and its shareholders. The Directors expect to take measures to rationalize its existing business, including improving the operation efficiency and effectiveness of the businesses and undergoing business segment integration.

The Group is also trying to diversify its businesses into the business of money lending and the money lender license has been issued to the Group. The Directors consider it will be beneficial to the Company to explore new opportunities in the money lending business to broaden its source of income and expand the business operations in order to generate profits and return for the Company and the Shareholders.

In general, the Group is working diligently in building a good foundation and engineering the company of the Group to add value to each other in the cultural, media and entertainment business and at the same time to explore opportunities to expand the Group’s business operations.
